DOUBLE·TRIPLE

EASY TO PLAY!

Bet the first half! Then select the second half AFTER you have won the first half!

BIG STAKES & PAYOFFS!

$3 Minimum wager (including, boxes, wheels, etc.) assures that the pay-outs will be big.

50% of the pool* will be paid out to winners of the first triple! If no one has the 1st three finishers, the entire 50% will still be paid out to those tickets with the first two finishers, or to the first finisher if no one has two!

TODAY'S CARRYOVER·POOL

$145,413.00*

HOW TO PLAY THE DOUBLE TRIPLE

1) Give your selections for the first half of the Double Triple (3rd race Triple) to a mutuel clerk.

2) If you win the first half of the Double Triple (the 3rd race) **EXCHANGE YOUR WINNING TICKET(S)** for your wager(s) on the second half of the Double Triple (the 5th race).

3) At that time, you will collect your share of the 50% payout.* (Remember, if no one has the 1st three finishers in the exact order, the pool will be distributed to those with the first two finishers, etc.)

4) If you win the 2nd half of the Double Triple, simply cash your ticket(s) for your share of the pool. In order to win the second half, **YOU MUST HAVE ALL THREE FINISHERS IN THE EXACT ORDER.** If there are no winners, the remaining pool will carry over to the next racing day.

*Net of takeout and state deductions

THE ODDS

Odds represent the chances of winning at any given venture, based on how the bettors have actually bet. The greater the share of total betting on a particular horse, the lower that horse's odds will be, and the lower the pay-off price. The odds are based on the WIN pool only. It makes no difference to the track which horse win or what his odds are. The total amount wagered (less government taxes and track commissions) is paid out as winnings after every race. The amount of the pay-offs depends on the number of dollars bet on the winning horse.

THE MORNING LINE

The "morning" odds in the program are set by oddsmakers before the betting actually begins. They are simply educated guesses of how the public will bet on each horse. They change as the actual track betting dictates. All payoffs are calculated on a $2 bet.

THE TOTE BOARD

Located in the infield of the racetrack - the Tote Board is a huge information board which displays a great variety of betting information. This information is provided by a computer that adds the totals wagered on a given race into each type of betting pool.

The betting odds for WIN shown prior to each race are the "morning line." From the moment betting on each race begins, the odds (determined by the bettors themselves) fluctuate according to how much is bet on each horse in a given race.

The betting odds refer only to WIN bets. Odds for PLACE and SHOW pay-offs cannot be displayed because they are affected by the amounts bet on the other horse which is involved in the PLACE pool, and the other two horses involved in the SHOW pool. It is impossible to determine before the race what the PLACE and SHOW pay-off prices will be.
